

DON'T BE THE DEATH OF THE PARTY.

PRESCRIPTION PAINKILLER OVERDOSES HAVE INCREASED BY 260% AMONG 12-25 YEAR OLDS IN WISCONSIN.

People who think they can pop prescription painkillers like candy often end up being the death of the party. That's a Dose of Reality that's hard to take, especially since it's young Wisconsinites ages 12 - 25 that most commonly make this fatal mistake.

Working together, we can prevent prescription painkiller abuse in Wisconsin. Since 4 out of 5 heroin addicts start with prescription painkillers, we can also help to curb the statewide heroin epidemic. Go to DoseOfRealityWI.gov to learn what you can do to help.

DOSE OF REALITY
PREVENT PRESCRIPTION PAINKILLER ABUSE IN WISCONSIN.
